

Turning to Surrey on the ebb tide at Putney Pier - High Tide

Alternative routes at high tide with a strong steam

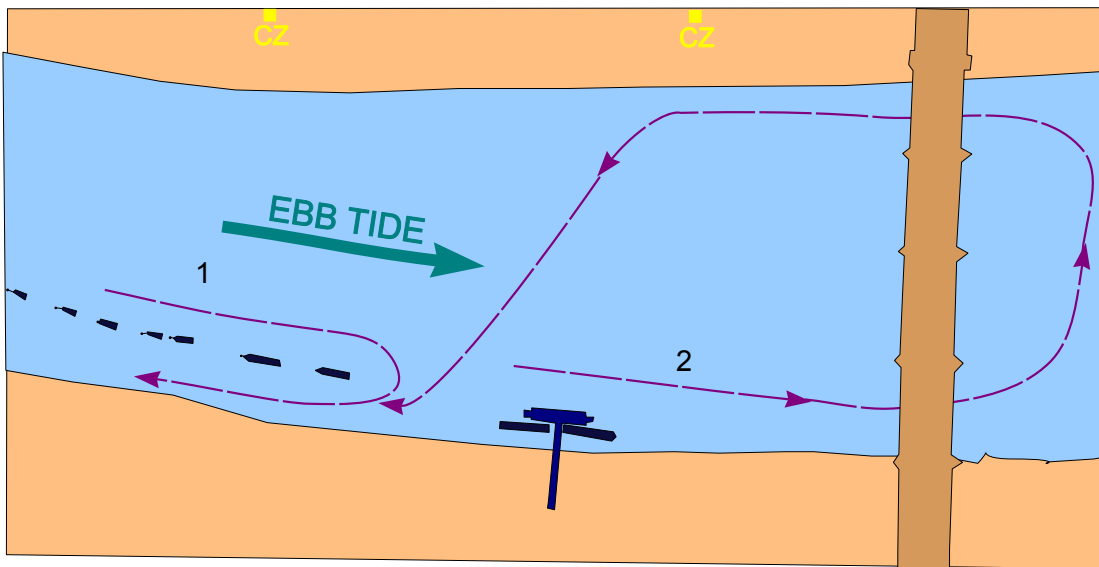

1. The route normally taken by boats, with the danger of being swept onto Putney Pier.
2. If there is enough water under the Surrey arch of Putney Bridge and behind Putney Pier, this is the safest route.

Turning to Surrey on the ebb tide at Putney Pier - Low Tide

Alternative routes at low tide

1. The route normally taken by boats, with the danger of being swept onto Putney Pier.
2. If a crew cannot take route 1, this is the route that must be used. Care must be taken when crossing the river.
